[PORTFOLIO](#)

[LINKEDIN](#)

Moab, Utah

I am an experienced manager with a strong foundation in leading teams and collaborating with cross-functional groups to execute complex product development cycles. My expertise spans **digital strategy, project management, product ownership, UI design, e-commerce, operations, client success, quality assurance testing** and **software engineering**. I've thrived in dynamic, multi-faceted roles, allowing me to wear many hats and contribute effectively to both the strategic and technical aspects of projects. With a focus on clear communication, collaboration, and decision-making, I am skilled in balancing multiple projects simultaneously while maintaining strong client relationships and delivering results in fast-paced environments.

Outside of work, you can find me embracing the outdoors—whether it's mountain biking, climbing, hiking, trail running, camping, river rafting, or playing my guitar. I'm passionate about living life to the fullest and bringing that same energy and focus to my professional endeavors.

-- EXPERIENCE --

Director of Product Management

Genius Platforms

Sep 2023 - Present

- **Lead and managed 60+ website development projects**, ensuring timely delivery of high-quality, user-friendly websites that align with client objectives and industry standards.
- **Restructured day-to-day operations** by identifying inefficiencies and introducing process improvements, resulting in a 40% increase in team productivity and a significant reduction in project delivery time.
- **Worked closely with senior leadership** to develop and execute the company's strategic goals, aligning project outcomes with the company's vision for growth and client satisfaction.
- **Developed and executed project plans, timelines, and resource allocation strategies**, ensuring clear documentation for effective project tracking and execution within a fast-paced startup environment.
- **Collaborated with cross-functional teams**, including developers, marketers, designers, through all phases of project lifecycles, from initiation to delivery.
- **Fostered a collaborative team environment**, promoting problem solving, creativity, and continuous improvement.
- **Utilized Figma to create and prototype custom web designs**, collaborated with designers and stakeholders to design visually appealing, responsive interfaces that align with brand identity and client needs.

Frontend Software Engineer

Sweden Unlimited

Jan 2023 - Jul 2023

(Front-End Development, Git, Shopify Plus, Javascript, React, Tailwind, Liquid, SCSS(SASS), Webpack, Gulp, Jira, Confluence)

- Coded, maintained, and optimized 8 complex e-commerce projects, ensuring seamless functionality, high performance and continuous improvement through regular updates and troubleshooting.
- Coordinated external teams and developers in a global, remote-first environment, driving project success through Agile workflows and effective communication.
- Utilized various management softwares such as Jira, Confluence and Forecast to maintain timely project completion.
- Engineered dynamic and responsive Shopify stores with Vanilla JavaScript, SCSS, HTML and Liquid from scratch.

Frontend Web Developer

Verbal + Visual

May 2022 - Jan 2023

(React/Redux, Vue, Shopify Plus, Liquid, Javascript(ES6), CSS, Tailwind, SCSS(SASS), HTML, Node.js, Git, Cypress, Webpack, Asana)

- Collaborated with cross-functional teams to successfully execute complex product development cycles, ensuring timely delivery and alignment with business goals.
- Designed and implemented engaging animated features for website homepages, including image banners and interactive product sliders, enhancing visual appeal and user experience.
- Built custom Shopify themes utilizing Shopify CLI and Github Integration under the Shopify Plus Platform.

Design Director

Grandfolia Plants & Service

Jan 2017 - Nov 2021
